Wallabies

Rugby

V France Lunch

Guest Speaker - David Campese

June 28 is the date to set aside for the Tattersalls Rugby Lunch on the Friday prior to Wallabies vs France.

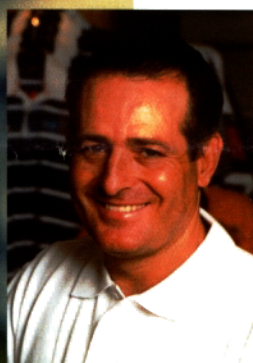

This year, our guest speaker is Number Eleven - record holding Wallaby David Campese; widely regarded as the greatest rugby player of his generation.

In an international career spanning 15 years, David has played more test matches and has scored more tries than any other player in the history of the Australian game being first capped for Australia against New Zealand in 1982. He has collected 101 caps both as a wing three-quarter and as full back, which places him second in the list of the world's most capped players behind Phillippe Sella.

Campese holds the world record of 64 international tries. David has played in three World Cup tournaments and of course was on our winning side in 1991, where he was player of the tournament.

He will speak on his experiences playing France and the game of rugby in general.

Tickets for the lunch are selling fast, and can be booked through the Administration Office, telephone 9264 6111. Cost is \$120, which includes a three course luncheon and drinks.

from the chairman

Although not as large an attendance as at the 2001 Annual General Meeting, I was very pleased that a number of members who attended this year's meeting were willing to offer some excellent suggestions for the Committee's consideration.

Topics raised included smoking in the clubhouse (no AGM would be complete without this discussion), expanding the range of reciprocal clubs, advertising the benefits of associate membership, fixing a new entrance fee in the light of the recent membership applications and restoring some of the Club memorabilia.

During the members' luncheon which followed the meeting, the 2002 Sportsman of the Year award was presented to Richard Jagger. The award recognises Richard's sporting achievements in swimming, ocean swims (including the Maui 'A' team), biathlons and triathalons. Most of all, Richard is a keen participant in a wide range of Club activities and sets an excellent example to us all as a sportsman of much character. My special thanks to Vince Maloney and Arthur King for their generous donation of a \$500 gift voucher from Vince Maloney, Gentlemen Outfitters par excellence, to accompany the perpetual trophy for this most prestigious award.

The result of the election of Treasurer was also announced at the meeting. Denis Pidcock was re-elected to the position. In congratulating Denis, I would also like to thank the Returning Officer Tim Bowring and the Scrutineers, Harry Turner and Andrew Torok for their efforts in conducting the election.

Peter Werner and Simon Forsyth join the Committee and I welcome them and look forward to their contributions during the year.

For the first time I can remember in 30 years of membership of the Club, we were forced to close the clubhouse for half a day in April due to a hazardous chemical spill which hospitalised two of our staff and resulted in the call-out of large numbers of police, firemen and rapid response group emergency personnel.

What happened was that a regulator valve, which measures out chlorine and hydrochloric acid as part of the water treatment plant for the pool, failed to close during a shutdown of the system. Toxic gasses built up in the lines and vented off into the atmosphere and into the air conditioning system. Our staff reacted promptly to the

problem and the failure was remedied that day with the pool back in operation less than 24 hours later.

On a happier note, the May Black Tie Boxing lived up to its reputation as one of the great and unique Sydney sporting occasions. Almost 400 members and guests provided a wonderful backdrop for some excellent contests and exceptional entertainment of the sort which has made this event the most sought-after ticket in the Tattersalls sporting calendar. This event is conducted entirely in-house by our own staff who somehow manage to cater for such numbers with food and service which is absolutely top class. The venerable Arthur Tunstall and the NSW Amateur Boxing Federation do the rest. Be sure to be in line for October when it's on again!

Can you imagine dining with almost two full teams of Wallabies, or former Wallabies and their coaches - at the same time? Along with Committeemen Andrew Coorey (who conducted some penetrating and very humorous panel interviews during the night) and Andrew Leary, I represented Tattersall's at the Australian Schoolboy's Rugby dinner in our clubroom. With commentator Gordon Bray as MC, the dinner attracted one of the best line-ups I have seen in the Club. The three Ella brothers were joined in Coorey's panels by Wallaby coaches Rod Macqueen and Eddie Jones, as well as former Australian Rugby schoolboy greats, King Wally Lewis, Michael O'Connor and Michael Hawker. To provide a little balance, Australian cricketing greats Alan Border and Matt Haydon were there in support. I ran into Phil Kearns (a one-time guest speaker at a Tattersall's Rugby Lunch) who was at pains to assure me that he was not one of the VIPs on such a night of stars. Really?

And finally, good luck to members playing in the Annual Snooker Calcutta which has kicked off with the traditional auction and dinner last month. Once again, a lot of money is at stake with everyone in with a chance. David O'Dowd won in 2001 off the maximum handicap of 75. The scratch players this year play off minus 33, but are well able to put together a 100 break given half a chance.

Russell Debney

secretary's report

The subject of dress regulations is constantly raised with me by Members. The minimum standards for admission to Tattersalls are a collared shirt, tailored slacks and dress shoes. For admission to the Athletic Department prior to 9am, these regulations are relaxed, however from 9am, Members who are not wearing the minimum standards will only be admitted through level B1.

Management and staff will be vigilantly monitoring these standards over the next few months, therefore I ask everyone to adhere to the rules set by your Committee.

Thank you to those Members who inquired regarding the health of Denis Phillips and myself, following the recent gas leakage.

Tim Bowring
Secretary

Preparations are now well under way for the inaugural Tattersalls Waterford Crystal Calcutta scheduled for the second half of this year. Swimmers are reminded that they must be financial members of the swimming club (a mere \$20.00) and have completed 3 x 50 metre swims in the Tuesday club races before 30 June 2002 to be eligible. Tremendous interest has been expressed in the Calcutta so far and we are very hopeful that substantial financial rewards will await the winners.

Month 3 saw Pat Bryant take out the 50 metres point score, with committeeman Andrew Coorey triumphant again this time in the 100 metres. The Manchester Unity swimmer of the month award went to Mr Rock, 96 Tom Nolan.

We welcomed new swimmer Phil Reichelt to the Swim Club this month with Justin Herlihy and Peter Joseph returning to the fold.

Results of month 3 swimming were:

TATTERSALLS GIFT VOUCHER AWARD 50M

| 2. Mark Roufeil | 14 points |
| 3. Peter Thiel | 13 points |
| 3. Andrew Torok | 13 points |

OCEAN SWIMS

Congratulations to both Peter Thiel and Simon Storry on their 2nd and 3rd places respectively in the inaugural Coogee-Bondi ocean swim.

Thirty-four swimmers contested the event and our boys put in excellent performances. Thanks also to Tom Nolan for his sterling work in accompanying the swimmers in his kayak. With Peter and Tom around we can be sure no shark would have been game to come within 500 metres.

Congratulations also to Callum Macleod. Callum continues to burn up the opposition in biathlons and is proving to be one of the best biathletes in the country. Keep up the good work Callum.

TRAINING SQUAD

The early morning swim squad meets Monday, Wednesday and Friday mornings at 6.45am. If you are interested in style correction and aerobic fitness please come and join us.

The Camel's Back

(But it's not the last straw)

The Maloney men remember camel hair with affection.

It had a good male sort of feel and colour. It was big in the seventies. You wore it in a country-going sports coat or a swaggering 'polo coat'. The Chaps have been asking each other, "When's camel coming back?"

Come and be seduced by Zegna super-jacket in 100% pure camel hair. A bit more blonde than it used to be.

Respond to the lush barleycorn weave.

Feel that \$2025 as you wave it good bye.

Vince Maloney On-The-Park

SQUASH 2002 CHAMPIONSHIP

Squash has been a popular sporting pursuit amongst Tattersalls Members for many years and demand from an ever-increasing number of regular players has resulted in the implementation of a perpetual squash championship. The aim of the competition is to create a ranking system with challenge games for the crowning of an annual Club champion by year's end.

Tattersalls Squash Championship Rules

Challenges must be answered within 48hrs and played within 7 days unless the challenger is absent from Sydney at the time of the challenge where an agreed date of play will be arranged.

A player is entitled to issue as many challenges as they choose.

All matches are to be played "Best of 5" under the rules of the Squash Raquets Association of NSW "Point a rally" scoring is to be used ie to 15/17.

The double yellow dot (championship) ball is to be used unless both players wish to change to an alternate of their choice

The challenger must submit the result of the match to the Athletics Department Manager

Any matter of dispute will be determined by the Athletics Department Manager within 24hrs of play, and their determination shall be final.

A player can only issue a challenge to 2 players above them on the ladder

Phone and e-mail addresses will be provided on the noticeboard

Well the fishing in Sydney has slowed quite a bit since the cooler weather has arrived. It has hit us quickly, the water temps over the last week have dropped about 3 degrees. There are fish out there... you just need a sinking line and some berley. Pittwater still has some kingfish so if you have access to a boat its worth a try.

Of course, its a good time for the trout now... but do it before the season ends on the June long weekend.

So as winter sets in we in the flyrodders club can now have the opportunity to catch up or polish up our skills. We are planning on having some Sunday morning fly casting lessons. They will be group lessons to start with and then if anybody wants to learn to cast at specific species, we will arrange it. We are looking at doing it at Manly Dam, for a couple of reasons ...there is good access to water and also fish in the dam ...infact some very big carp. Its also protected from the cooler winter winds. So if anybody is interested let me know, we are arranging some dates, they will be available soon.

Secondly, it looks like we will have the pleasure of Dean Butler speaking at the Club in early July (date to be confirmed). Dean is recognised as one of Australia's most travelled and experienced fly fisherman. He has recently been flyfishing in Florida where he hooked a world record billfish. Dean also has one of the most comprehensive slide shows you will ever see from any angler. So this night will be a must.

Lastly, we are organising the first Tattersalls freshwater fly fishing competition ...it looks like we will hold it in the Snowies in spring staying at Lake Crackenback ...this will give us a good base and allow you to bring wife's or partners. More on this when we have dates and costs.

TATTERSALLS SKI WEEK TRAINING

During last years ski season did you find you were under prepared for the rigours of the slopes? Were you tired by mid morning, sore by the afternoon and looking for the first chairlift to the bar well before opening time?

If you answered "Yes" to any of the above then the Athletic Department has the remedy.

Pre Ski Season training sessions will be held at 1.15pm on Mondays commencing June 17th. The classes run for 45min and will ensure you are ready to enjoy your ski exploits this winter.

The focus of the sessions will be to enhance Member cardiovascular fitness levels while strengthening the ski specific muscle groups of the legs and trunk region with a heavy emphasis on core stability.

The Pre Ski Season training sessions are suitable for skiers of all ability levels.

For more information see Josh Kersten in the Athletics Department.

Anywhere Travel News

Adventure world-wide with Peregrine

Adventure holidays run the gamut from "soft" watching lions from the verandah of your lodge while sipping a G&T - to challenging summiting a 6,000 metre Himalayan peak. The difference between an "adventure" holiday and a "regular" tour is that you experience your holiday, rather than watch it pass by the bus window. You'll meet the local people, get to know the wildlife, learn about cultures and the natural world and often come home with a new perspective on your own life.

Australian-owned Peregrine is one of the world's leading adventure travel operators, offering a wide range of holidays on all seven continents. From hiking in the Himalaya, to cruising to Antarctica; from lodge safaris in Africa to exploring remote parts of China, Peregrine's small group tours offer safety, quality and value-for-money.

The holidays are led by professional local licensed guides, who speak fluent English as well as the local languages and who offer the insider's insight into their homelands. In destinations such as Africa and the Polar regions, expert naturalists are also on hand.

Peregrine operates expedition-style cruises to both the

Arctic and Antarctica aboard the ice-strengthened Peregrine Mariner, recognised as the best ship in her class operating in Polar waters. Taking just 100 passengers, the voyages explore the hidden corners and bring passengers face to face with the wildlife and beauty of some of the last true wilderness areas on earth.

China is a country facing rapid and enormous change. Peregrine's local leaders show clients the old and the new; hill-tribes who rarely see outsiders live a world away from dynamic Shanghai. Visitors have just one year to cruise the legendary Yangtze River before it is altered forever by the soon-to-be-completed Three Dams project.

While China is a "people" destination, Africa combines a chance to meet traditional peoples and extraordinary wildlife. In both Southern and Eastern Africa, Peregrine offers a range of accommodation styles in the most famous game parks, as well as off the beaten track adventures where every day brings a new and unexpected wildlife or cultural encounter.

For further details on Peregrine's range of world-wide adventure holidays contact Barbara at Anywhere Travel 9663 0411 or email barbaraw@anywheretravel.com.au.

expertonline

we question Tom (The Rock) Nolan.

Where were you brought up?

I was one of eleven children - enough for a cricket team! We lived at Bellvue Hill and my parents provided us with a wonderful upbringing. I boarded at Riverview College where I played in the 1st XV rugby and represented at athletics. Then I attended the University of Sydney to attain a BEc.

I qualified at 24 with Cliff Carpenter at Mann Judd & Co and then went to the University of Chicago where I gained an MBA. The experience was terrific. The "can do" attitude of the Americans is infectious. Sport had to take a back seat because of the intensity of study.

You've always been a sports fanatic?

For me, fitness is a second job. It requires effort and output. I'm not sure what drives me, but I think I have a pretty good idea of what fitness is:

1. Strength: I acquired this for Shipton Constructions when I was at Sydney University. He was a great boss. The work was really hard and heavy but I wasn't complaining. I was on full adult wages at age 18.

2. Stamina: I ran the 800 metres and the training you wouldn't wish upon your worst enemy. I was awarded a University Blue. I originally played Rugby and that was all I lived for. I used to play for the University on weekends and interfaculty rugby league and union during the week. But I suffered some awful injuries and had to give the game away. I was really disappointed but the running filled the void and Harry's swim squad keeps the stamina up now.

3. Endurance: I learned this in the Army Reserve as an Infantry Officer. I learned how far and long you can go with virtually nothing to eat, with very few possessions and little sleep. The infantry is a great place for fellows who like the rough and tumble. It is also a place to observe leaders and how they motivate people. One of my proudest moments was being awarded my Green Beret by Major Greg Nance - a man you'd walk over hot coals for.

4. Flexibility: This is the only aspect that really requires dedication. Gone are the days when I could leap out of bed and run the 100 metres straight away!

But what's your real job?

I am a Chartered Accountant at Young Barnsdall & Co, close to the Club. I have been in a number of industries, mostly in accounting roles. The most fascinating audit

was the Taxi industry where the word accounting was not in the vocabulary!

When did you join Tattersall's?

My father was a member and I joined in 1985. The club was then very fuddy-duddy, there didn't seem to be many young members and the attitude was "take it or leave it."

That all changed with the emergence of the new building. Now, what is provided by the staff is first class. The catering staff, the gym trainers and the office staff are all enthusiastic and capable. You can enter the Club feeling like a wet newspaper and exit feeling like conquering the world.

The camaraderie amongst the members is what makes the Club. Fellows such as the late Norm Rogers. I went on the 1987 Maui Channel Swim with Norm - he'd been captain of Easts leagues team in the fifties - he really epitomised the Tattersall's spirit, he made every one of the 32 persons on that tour feel absolutely essential, no matter what their position.

Other members give freely of their time to organise events and the Committee is doing a great job ensuring that everything runs smoothly.

What has been your sporting highlight?

Setting a class record in the Hawkesbury Classic in 10 hours and 27 minutes, which I still hold. This an 111 kilometre event that runs overnight from Windsor to Brooklyn and it was the fittest I have ever been. Two hours later I could have turned the boat around and done it all again.

The highlight was not the win but my wife Bernadette being at the finish to share it. She had driven all through the cold wet night. Behind every rusting ironman is the stainless steel woman!
